EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Briefly, the phrase "said first urine drainage" in claim 28 in the next-to-last line is amended to read "said first urine drainage tube" and the phrase "in plain view so as to be delayed to fit a wearer's crotch" is amended to be more consistent with the specification.

Claim 28. An automatic urine disposal device comprising a urine receptacle having an outer sheet having a U-shaped cross-section, including at least a bottom portion and side edge portions, the bottom portion having a width at a middle portion in the longitudinal direction narrower than a width at end portions in the longitudinal direction so that it is shaped like an hourglass in plain view so as to fit a wearer's crotch, and having a gather provided along its periphery, formed of a liquid-impermeable and non-breathable thin sheet made of soft flexible material, an inner surface of which is water-repellent-finished; urine absorbent material for storing urine accommodated in said outer sheet, said urine absorbent material having at least two layers such that the water-absorbent capability of a bottom layer located adjacent said bottom portion of said outer sheet is larger than that of a top layer, said bottom layer being formed by a foam or porous material; and a top sheet formed as a liquid-permeable non-woven fabric, covering the top layer of said urine absorbent material and, with said outer sheet, keeping said urine absorbent material highly airtight, a surface of said top sheet being adapted to be in contact with a wearer's urinating part and surrounding skin, wherein said top sheet has breathability measured according to breathability testing method A, prescribed in JIS L 1096, 6.27.1, from 20 to 200 cc/cm²/second when the top sheet is dry, and from 0 to 100 cc/cm²/second when the top sheet is moist and a urine drainage port provided on the bottom portion of said outer sheet; a sealed urine tank; a first urine drainage tube having one end connected to said urine drainage port; a second urine drainage tube made of soft flexible material having one end connected to another end of said first drainage tube by a one-touch joint made of a soft material and having another end operably connected to said sealed urine tank; a vacuum pump for decreasing air pressure in said sealed urine tank; and a urine sensor provided along said first urine drainage tube and electrically conductive in response to detecting a urination in the vicinity of said urine drainage port, and provided for applying a urine detection signal to a control board for controlling said vacuum pump, wherein said urine sensor detects a wearer's urination, the urine detection signal initiates said vacuum pump to deflate said

urine absorbent material and extract urine, thereby discharging said urine from said urine absorbent material through said first urine drainage, said one-touch joint and said second urine drainage tube to said sealed urine tank.

EXAMINER'S COMMENT

Response to Arguments

2. The rejection of claims 29 and 30 under 35 U.S.C. 101 is moot in view of the amendment to the claims.
3. The rejection of claim 30 under 35 U.S.C. 112 is moot in view of the amendment to the claims.
4. The rejections of claims 28-30 under 35 U.S.C. 103 are moot in view of the amendment to the claims.

Allowable Claims

5. Claims 28-30 are allowed.

REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance: The amendment to the claims overcomes all outstanding claim rejections under 35 U.S.C. 101 and 35 U.S.C. 112. With regard to claim 28, none of Lawrence, Conklin or Murai discloses or suggests all of the limitations of claim 28. It is the examiner's position that it would not be obvious to one of ordinary skill in the art to first modify Lawrence in view of Conklin and Murai's teachings, and then further modify the resulting article to meet any of the added limitations of claim 28. Claim 29 and 30 depend from claim 28 and are therefore also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
